Seconded: David Dresser
Carried Unanimously

Correspondences:

- a. Assessment Disclosure – David Kaiser is trying to contact Anne Morgan to inquire as to the property she is referencing.

Sewer Treatment Plant Report:

We had a plugged line at Hillside. Brewer's came and pumped it out and discovered medicine bottles as the culprit. Angel spoke with Hillside and they assured her this would be addressed.

Hobie informed the board that the power panel at the old pump house needs to be moved. Our pumps only require 208 volts and the new owner wants 240 volts. We have attempted to contact the homeowner to let him know that we do not require any more voltage than 208 and if he would like the additional voltage we don't have a problem with that, but the cost of the increased voltage would have to be paid by him. We will continue trying to contact him.

Financial Report:

Reports provided for review by the board.

Administrator's Report:

Jack is requesting we bid a smaller sewer-cleaning machine. He has determined that we do not need such a large machine and should not go to the additional expense when we can purchase a smaller machine to take care of our needs. Since the last meeting Hobie explained they have been able to see a demonstration of a smaller machine and feel this would satisfy their needs.

Verification of Payables:
